PROFESSIONAL EXPERIENCE

Digital Media & Web Development Intern | GLOJAS Smart International Aesthetic Sdn. Bhd. **Mar 2026 – Aug 2026**

- Designed and developed **30+ responsive WordPress and Elementor landing pages** for hair restoration, aesthetic, dental, bariatric and healthcare campaigns across desktop, tablet and mobile.
- Built and customised interactive website components including enquiry forms, WhatsApp actions, FAQs, testimonials, sliders, pricing sections, pop-ups and promotional banners using **Elementor, HTML, CSS and JavaScript**.
- Designed and developed the **Malaysian Hair Restoration Society website**, including information architecture, responsive layouts, navigation, membership, certification, resources and contact sections.
- Configured a searchable **physician directory using Directorist** and developed a scalable **Case Studies content structure using WordPress Posts, Elementor Posts Widget and Advanced Custom Fields (ACF)**.
- Integrated an **AI-assisted chatbot using Google Gemini API and aGo AI Chatbot**, including system prompts, an organisation-specific knowledge base, CSS customisation and response testing.
- Developed a **PHP-based medication order and payment submission workflow** with server-side form processing, proof-of-payment uploads, validation and confirmation feedback.
- Conducted **responsive testing, functional verification and website quality assurance** before publication.
- Produced healthcare educational and promotional content using **Canva, CapCut, Adobe Premiere Pro and After Effects**, while collaborating with marketers, doctors, designers and supervisors.

Web Designer Intern | Software Department, PPPK UTeM **Jul 2023 - Sep 2023**

- Designed and developed responsive web pages for UTeM's online claims system using HTML, CSS, and JavaScript.
- Translated system requirements into functional, user-friendly interfaces in collaboration with the software development team.
- Conducted user testing, gathered feedback, and refined layouts to improve clarity, navigation, and overall usability.
- Strengthened front-end development and problem-solving skills through real-world system enhancement tasks.

SELECTED PROJECTS

Malaysian Hair Restoration Society Website **2026**

- Designed and developed a professional organisational website from the initial domain and WordPress setup stage.
- Planned the information architecture and developed responsive Home, About Us, Certification, Membership, Physician Directory, Resources and Contact experiences.
- Implemented reusable components and responsive layouts across desktop, tablet and mobile.
- Integrated a searchable physician directory and interactive AI chatbot.

Technologies: WordPress, Elementor, HTML, CSS, JavaScript, Directorist, Google Gemini API

Healthcare Landing Page & Digital Media Development **2026**

- Created 30+ conversion-focused landing pages across 14 healthcare campaign categories, including hair transplant, bariatric surgery, dental implant, acne treatment, pigmentation, Rejuran, HIFU, braces, and laser hair removal.
- Handled UI/UX design, responsive development, SEO content structure, copywriting, HTML/CSS customisation, form integration, and performance optimisation.
- Designed user journeys and call-to-action placement to guide visitors from campaign content to WhatsApp, phone, or enquiry-form conversion points.
- Produced supporting healthcare videos and social media assets with captions, animations, transitions, branding, stock footage, and educational visual storytelling.
- Tested pages across desktop, tablet, and mobile devices and corrected layout, spacing, interaction, and content-display issues before launch.

Gamified Mental Health Support System - Final Year Project **2025**

- Developed an Android mobile application using Java, Android Studio, and Firebase Firestore to support mental wellness through gamification.
- Implemented mood tracking, daily challenges, XP progression, journaling, and achievement features within a user-centred interface.
- Applied Human-Computer Interaction principles to improve navigation, visual feedback, engagement, and ease of use.
- Earned the Gold Award, Industrial Award, and Best Presenter Award at Graduate Digital Invention, Innovation & Development (GD2ID) 2025.
